Mongo DB • Git & Github

Awareness of cloud computing platforms (AWS, Azure, Google Cloud)

CORPORATE SKILLS

- Adaptability to new technologies
- Continuous Learning
- Commitment to professional ethics and standards
- Clear and impactful verbal and written expression

PROJECTS

Bookstore Management Web Application 🔗

- Developed a user-friendly Bookstore Management web app using Java, Spring Boot, MySQL, Thymeleaf, and JPA.
- Seamlessly handle inventory with features for browsing available books, managing personal book collection, and registering new titles, ensuring efficient bookshop operations.

A Real-time Weather Web Application 🔗

- Developed an Angular weather web app using HTML, CSS, and TypeScript, intricately connected to the Rapid API.
- Offering real-time weather updates for major global cities, the app delivers comprehensive details on temperature, wind, min/max temps, and humidity.

Interactive Profile Card 🔗

- Developed an interactive profile card using HTML, CSS, and JavaScript.
- The project combines visual appeal with practicality, allowing users to download my resume and connect directly via WhatsApp for a straightforward and interactive experience.
